
DCP3 AGENDA: VOLUME 5-Cardiometabolic Diseases

Meeting Objectives:

- Review progress in developing the main policy-relevant messages of the volume
- Identify and discuss overlaps and gaps in how the chapters are covering the topics, and develop plans to remedy if needed
- Consider the preliminary economic analysis produced for DCP3 on cardio-metabolic and respiratory conditions in LMICs, and plan for additional analyses where needed
- Discuss and clarify timelines, review and publication processes. Explore launch ideas.
