

DCP3: Improving Health and Reducing Poverty
Bill & Melinda Gates Foundation Partners Meeting
Thursday, May 7, 2015

Bill & Melinda Gates Foundation
500 5th Avenue N
Lake Washington Conference Room
Seattle, WA 98109

INTRODUCTION AND PURPOSE:

This session will present early findings from *Disease Control Priorities, 3rd Edition*. For the BMGF Partner Forum, it will focus on research and innovation, as well as health service delivery and coverage. Presenters will summarize the main advances in the area of reproductive, maternal, neonatal, and child health (RMNCH) over the past 5-10 years. Speakers will look ahead to 2030, exploring the priority tools that are being developed and urgently needed to further tackle RMNCH mortality and morbidity. They will identify roles and responsibilities between public and private actors, and between international and domestic resources in achieving the priority RMNCH agenda.

AGENDA

INTRODUCTION
